

STUDIO KANDERFIELD

Wendy Jagger
- FINE ART CERAMICS -

Based in Mansfield in Victoria's High Country, Wendy Jagger is inspired by the beauty of the rugged Australian landscape and its unique flora. Her field drawings are developed into paintings and translucent porcelain vessels.

Wendy utilises a range of techniques to transform her wheel and hand formed vessels into artworks, lighting and functional forms. She works with corporate

clients to create unique solutions. Clients include Mazda Australia, Mt Buller and Strathbogie Ranges Estate, as well as numerous private commissions. Her paintings have won awards and have been commissioned for book covers.

Her work is represented in several public collections and is available in various respected outlets of contemporary fine craft and her studio gallery.

Studio KanderField is Wendy's newly established studio gallery, located on the edge of Mansfield overlooking Mt Buller. Here she creates and sells her work, as well as conducting classes in wheel thrown ceramics. Please enquire about upcoming courses.
